

SAGAR DATKHILE

sagardatkhile.official@gmail.com | +91-9604570973 | LinkedIn | Portfolio | Twitter | GitHub | LeetCode | Nashik, Maharashtra

Objective

Seeking a web development internship to apply my skills and contribute to real-world projects.

Summary

A highly driven and adaptable Computer Engineering student with hands-on experience in MERN Stack and Supabase. Proven ability to build high-performance and responsive user-centric web applications.

Education

BE in Computer Engineering | CGPA: 8.45 **2023 – Present**
Pune Vidyarthi Griha's College of Engineering, Nashik | SPPU

Higher Secondary Certificate (HSC) – Science | 75% **2022 – 2023**
Shramik Junior College, Sangamner | Maharashtra State Board

Secondary School Certificate (SSC) | 91% **2020 – 2021**
SMBT Vidyabhavan Amrutnagar, Sangamner | Maharashtra State Board

Skills

MERN Stack | React.js | Node.js | Java | Data Structures | Algorithms | C++ | MySQL | Git | Github | Vercel

Projects

Agro Connect | Link **July 2025**
(Lead Developer)

- A full-stack web application enabling farmers to manage crop and agricultural data efficiently.
- Implemented role-based access control for farmers and administrators using PHP and MySQL and REST-style CRUD operations, with responsive UI using HTML5, CSS3 and JavaScript.
- Built farmer modules for profile management and crop postings with investment and turnover tracking. Advanced search and filter allow users to discover crops by name, region and farm area.
- Developed an admin dashboard to manage farmers and crop listings and platform data integrity.

Scholar Mentor **Nov 2025**
(Lead Developer)

- An AI-powered mentorship platform connecting students and alumni for mentorship and professional networking. Contributing to system design, agile development, testing and deployment following scalability and component-based UI/UX standards with Github version control.
- Architected a scalable full-stack web application using Next.js, Firebase, and Jupyter Lab, ensuring modular design. Built AI-based alumni-student matching system using FAISS data analysis.
- Integrated real-time communication features to improve alumni-student engagement.
- Students with active mentorship are up to 6x more engaged in career development activities.

Work Experience

Web Development Intern **Sept - Oct 2024**
Technohacks, Maharashtra, India

Completed a remote web development internship, delivering three front-end projects using HTML5, CSS3 and JavaScript with hands-on experience in responsive UI design and real-world development workflows.

Certifications

- Programming with Python Certification - Internshala.
- AWS Academy Cloud Foundations Certification.
- Java & DSA Certification - Talent Battle.
- Generative AI Mastermind - Outskill.

Extracurricular Activities

- Internal Hackathon Participation and Leadership - SIH 2025
- Participation in Gen AI-thon - ML Nashik 2025
