

SAGAR DATKHILE

sagardatkhole.official@gmail.com | +91-9604570973 | LinkedIn | Portfolio | Git-Hub | Leet Code | Nashik, Maharashtra

Objective

Seeking a Full Stack Developer internship to apply my end-to-end development skills and contribute to production-grade, real-world projects.

Summary

A highly driven and adaptable Computer Engineering student with hands-on experience in MERN Stack, Supabase and RESTful API design. Proven ability to build scalable, high-performance and responsive user-centric web applications following agile and clean code principles.

Education

BE in Computer Engineering | CGPA: 8.45 **2023 – Present**
Pune Vidyarthi Griha's College of Engineering, Nashik | SPPU

Higher Secondary Certificate (HSC) – Science | 75% **2022 – 2023**
Shramik Junior College, Sangamner | Maharashtra State Board

Secondary School Certificate (SSC) | 91% **2020 – 2021**
SMBT Vidyabhavan Amrutnagar, Sangamner | Maharashtra State Board

Skills

MERN Stack | **React.js** | **Node.js** | **Java** | **Data Structures** | **Algorithms** | **MySQL** | **Git** | **GitHub** | **Vercel**

Projects

- | | | |
|--|-----------------------|------------------|
| Vendor Verify - Link | <i>Lead Developer</i> | Feb 2026 |
| <ul style="list-style-type: none">• A secure full stack QR-based product authentication system to detect counterfeit products and improve supply chain transparency, deployed to production on Vercel.• Integrated QR scan tracking with logs, IP address monitoring and location-based audit history for end-to-end traceability.• Implemented role-based access control with Vendor (product registration and QR generation), Verifier (QR authenticity verification), and Admin (user management and scan monitoring) modules.• Built a responsive frontend using React.js and Tailwind CSS with JWT-authenticated backend services powered by Node.js and Supabase. | | |
| Agro Connect - Link | <i>Lead Developer</i> | July 2025 |
| <ul style="list-style-type: none">• A full stack web application enabling farmers to manage agricultural data using a component-based architecture.• Implemented role-based access control for farmers and administrators for real-time platform integrity monitoring.• Built farmer modules for user authentication, profile management, investment and turnover tracking. | | |
| Scholar Mentor - Link | <i>Lead Developer</i> | Nov 2025 |
| <ul style="list-style-type: none">• An AI-powered mentorship platform connecting students and alumni for mentorship and professional networking.• Architected a scalable full stack application using and Firebase, ensuring modular design and real-time data sync.• Students with active mentorship are up to 6x more engaged in career development activities via an analytics dashboard. | | |

Work Experience

Full Stack Developer Intern – Civora Nexus Pvt. Ltd. **Mar–Apr 2026**
Worked on end-to-end feature development using React.js, Node.js, Express.js, and MongoDB as part of a remote internship at an AI-driven civic technology company. Implemented RESTful APIs and gained practical experience in secure web application development and agile workflows.

AI/ML Intern – SupraTech AI Innovations & Software Solutions Pvt. Ltd. **Jan – Feb 2026**
Gained hands-on experience in data analysis, supervised & unsupervised machine learning algorithms, and real-world case studies using Python. Worked with industry-standard AI/ML development tools and cross-functional team practices.

Certifications

- Programming with Python Certification | Problem Solving & Automation – Internshala
- AWS Academy Cloud Foundations Certification | Cloud Deployment & Services
- Java & DSA Certification | OOP, Data Structures & Algorithms – Talent Battle

Extracurricular Activities

- Runner-Up, Culling Games 2026 (Placement-Readiness Challenge)
- Runner-Up, UpxGen Hackathon, PVGCOEN 2026
- Hackathon Participant – GHR Hack 2.0 Hackathon, Jalgaon 2026
- Generative AI & LLM Applications – Gen AI-thon, ML Nashik 2025
